2014 City Park Facts

THE TRUST for PUBLIC LAND

LAND FOR PEOPLE

The Trust for Public Land conserves land for people to enjoy as parks, gardens, and other natural places, ensuring livable communities for generations to come.

Our Center for City Park Excellence helps make cities more successful through the renewal and creation of parks for their social, ecological, and economic benefits to residents and visitors alike.

This report was made possible through the generous support of:

The 2014 City Park Facts report was created by: Peter Harnik, Director, Center for City Park Excellence Abby Martin, Research Coordinator Tim O'Grady, Intern

LAND

WHY CITY PARK FACTS?

Data is knowledge, and knowledge is power. Over the past decade, the city parks movement has gained tremendous power, and one reason is the dramatic increase in the amount of information available about almost every aspect of urban park and recreation systems.

We are pleased to present another edition of *City Park Facts* after taking a year off in 2013. The 2014 edition of *City Park Facts* has a number of new and reconfigured reports: natural and designed parkland calculations; expanded snapshots of city park facilities, including disc golf courses, public beaches, nature centers, and tennis courts; parks with the most visitors per acre; and a revised tabulation of parkland as percentage of city area. We have adjusted our calculation of city land area to exclude unpopulated airport and railyard acreage, generating a more fair comparison between cities. This year's *City Park Facts* also includes the percentage of residents within a half mile (10-minute walk) of a park for 10 additional cities.

The latest manifestation of the power of knowledge is The Trust for Public Land ParkScore index[®] (parkscore.org), the most complete ranking of the park systems of the nation's 50 largest cities. Based on data collected and generated by The Trust for Public Land for this publication, ParkScore has proved immensely valuable not only for urban residents but also for the park managers, park planners, and urban politicians who must look ahead to the development and upkeep of their systems.

HOW TO USE THIS BOOKLET

When we say "city," we mean only the municipality, not the metropolitan region. Thus, "Los Angeles" means the city of Los Angeles, not greater Los Angeles, nor Los Angeles County. However, several cities that are included in greater Los Angeles—Long Beach, Anaheim, Santa Ana, and Irvine—happen to be large enough to merit separate inclusion in this booklet and are listed under their own names.

When we say "largest" we are referring to the 2012 population of the city. (City area is based on 2010 census numbers.) For certain reports, we categorize cities based on their average population density (population divided by adjusted municipal land area); the density categories are based on standard deviations from the mean.

When we say "park" we are referring to publicly owned and operated parks. In Table #I, we count every kind of park within the municipal boundary of the city, including federal, state, county, regional, and municipal parks. We do not count private golf or other clubs, nor do we count parks in gated communities.

In most reports we combine the data from all the different park agencies in the city. In a few reports we separate parks by their management agency, sometimes omitting the various smaller, specialized agencies in a city.

When we say "operating spending" we mean year-in, year-out work such as landscape and tree maintenance, facility maintenance, trash removal, recreational programming, planning, administration, policing, lighting, marketing, etc. "Capital spending" refers to one-time items such as land acquisition, construction, and major road or structural repairs. In order to provide greater uniformity between agencies, we do not count the expenses associated with zoos, aquariums, professional sports stadiums, museums, and cemeteries, which are public parks in some cities but not others. In Table #7, total spending includes both operating spending and capital spending.

The reports published here constitute only a portion of the data available from the Center for City Park Excellence. For more reports, plus electronic versions of this data, see tpl.org/cityparkfacts. For other studies carried out by the center, go to tpl.org/CCPE.

5. PERCENT OF CITY POPULATION WITH WALKABLE PARK ACCESS

2013

Park access is the ability to reach a publicly owned park within a half-mile walk on the road network, unobstructed by freeways, rivers, fences, and other obstacles. Thus far, Park access has been measured only for the 50 most populous cities. Note that population figures will not exactly match the census figures used elsewhere in this booklet. For methodology, detailed analysis, and maps, visit parkscore.org.

Rank	City	Residents Within 1/2 Mile of a Park	Residents Beyond 1/2 Mile of a Park	Percent of Population wit Walkable Park Access
1	San Francisco	787,128	14,635	98.2%

6. PARK PLAYGROUNDS PER 10,000 RESIDENTS BY CITY

2013Park playgrounds do not include school playgrounds. If a city has more than one park agency, their playgrounds are combined.

SPENDING ON PARKS AND

RECREATION PER RESIDENT BY CITY

MOST RECENTLY REPORTED FISCAL YEAR

SPENDING BY PRIMARY PARK AGENCY SPENDING BY ALL OTHER PARK AGENCIES

Total spending includes both operating and capital spending of all park agencies within the city, but excludes nonstandard facilities such as professional stadiums, zoos, museums, aquariums, and cemeteries. Italics indicate cities whose financial information is partially from a previous year. For a listing of data by fiscal year, visit **tpl.org/cityparkfacts**.

This chart also depicts the relative share of spending by the city's primary park agency versus all other park-owning agencies within the city. The green portion of each bar represents the spending of the city's primary park agency. The lavender portion represents the spending by the rest of the city's park-owning agencies.

* Boston, Cincinnati, New Orleans, and Washington, D.C., have two primary city park agencies.

8. SPENDING ON PARKS AND RECREATION BY CITY, ADJUSTED FOR PRICE OF LIVING

MOST RECENTLY REPORTED FISCAL YEAR

Total Spending includes both operating and capital spending by all park agencies in the city, but excludes professional sports stadiums, zoos, museums, aquariums, and cemeteries. If a city has more than one agency, expenditures are combined. Italics indicate cities whose spending is estimated based on past-year information. For a more detailed listing of fiscal year data by city, visit **tpl.org/cityparkfacts**.

A Price of Living Score of 100 indicates median housing and transportation costs in the 100 most populous cities. The price of living is calculated using the Department of Housing and Urban Development's Location Affordability Index.

		Price o	f Living So	ore		Adjusted Spending
City	80 I	100 I	120 I	140 I	Total Spending per Resident	Reflecting Price of Living

10. NATURAL AND DESIGNED PARKLAND BY CITY

2013

Designed areas are parklands that have been created, constructed, planted, and managed primarily for human use. They include playgrounds, neighborhood parks, sports fields, plazas, boulevards, municipal golf courses, municipal cemeteries, and all areas served by roadways, parking lots, and service buildings.

Natural areas are either pristine or reclaimed lands that are open to the public and left largely undisturbed and managed for their ecological value (i.e., wetlands, forests, deserts). While they may have trails and occasional benches, they are not developed for any recreation activities beyond walking, running, and cycling.

	(acres)	Percent Designed/Percent Natural	Natural Parkland (acres)

Coney Island Beach and Boardwalk	New York	98,951
Independence National Historical Park	Philadelphia	64,836

12. THE 50 LARGEST CITY PARKS IN THE U.S.

These are the largest parks located within the limits of the 100 largest U.S. cities. Most are owned by the municipality, but some are owned by a state, a county, a regional agency, or the federal government. If a park extends beyond the boundary of the city, only the acreage within the city is noted here. New York's Central Park, commonly thought to be the largest city park, is number 134 at 843 acres. For the complete list of the largest city parks, visit **tpl.org/cityparkfacts**.

13. THE 50 OLDEST CITY PARKS IN THE U.S.

These are the oldest U.S. city parks within the 100 largest cities, ranked chronologically. In the case of parks that were enlarged later, the date refers to the year of initial creation or acquisition. In the case of parks whose names have changed, the modern name is given. For a list of the oldest park in each of the 100 largest U.S. cities, visit **tpl.org/cityparkfacts**.

Rank	Park Name	City	Year Established
1	Boston Common	Boston	1634
2	Military Park	Newark	1667
3	Washington Park	Newark	1669
4	Rittenhouse/Washington/Logan/Franklin Squares	Philadelphia	1682
5	Battery Park	New York	1686
5	City Hall Park	New York	1691
7	Jackson Square	New Orleans	1721
8	San Pedro Springs Park	San Antonio	1729
9	Bowling Green	New York	1733
10	Old Town Plaza	Albuquerque	1760
11	El Pueblo	Los Angeles	1781
12	National Mall	Washington, D.C.	1790
13	Settlers Landing	Cleveland	1796
14	Duane Park	New York	1797
15	Lafayette Square	Washington, D.C.	1804
16	Gravois/Laclede/Mt. Pleasant Parks	St. Louis	1812
17	Jackson Place Park	St. Louis	1816
18	Brinkley Park/Colonial Park/Columbus Park/Court Square	Memphis	1819
19	Santa Fe Plaza	Santa Fe	1821
20	Washington Square	New York	1823
21	Patterson Park	Baltimore	1827
