- National Park Service land
- Other government-owned or protected land
- Tribal land

*Within a half-mile (as-the-crow-flies) buffer of the NCT

The North Country Trail is America's longest National Scenic Trail stretching 4,800 miles from Lake Sakakawea State Park in North Dakota to the junction with the Appalachian Trail in Vermont. Designated by Congress in 1980, the trail is a unit of the National Park System and co-managed by the National Park Service and North Country Trail Association and is primarily maintained by volunteers.
